

Towards Optimizing Large-Scale Multi-Graph Matching in Bioimaging

Max Kahl*, Sebastian Stricker*, Lisa Hutschenreiter
Florian Bernard, Carsten Rother, Bogdan Savchynskyy

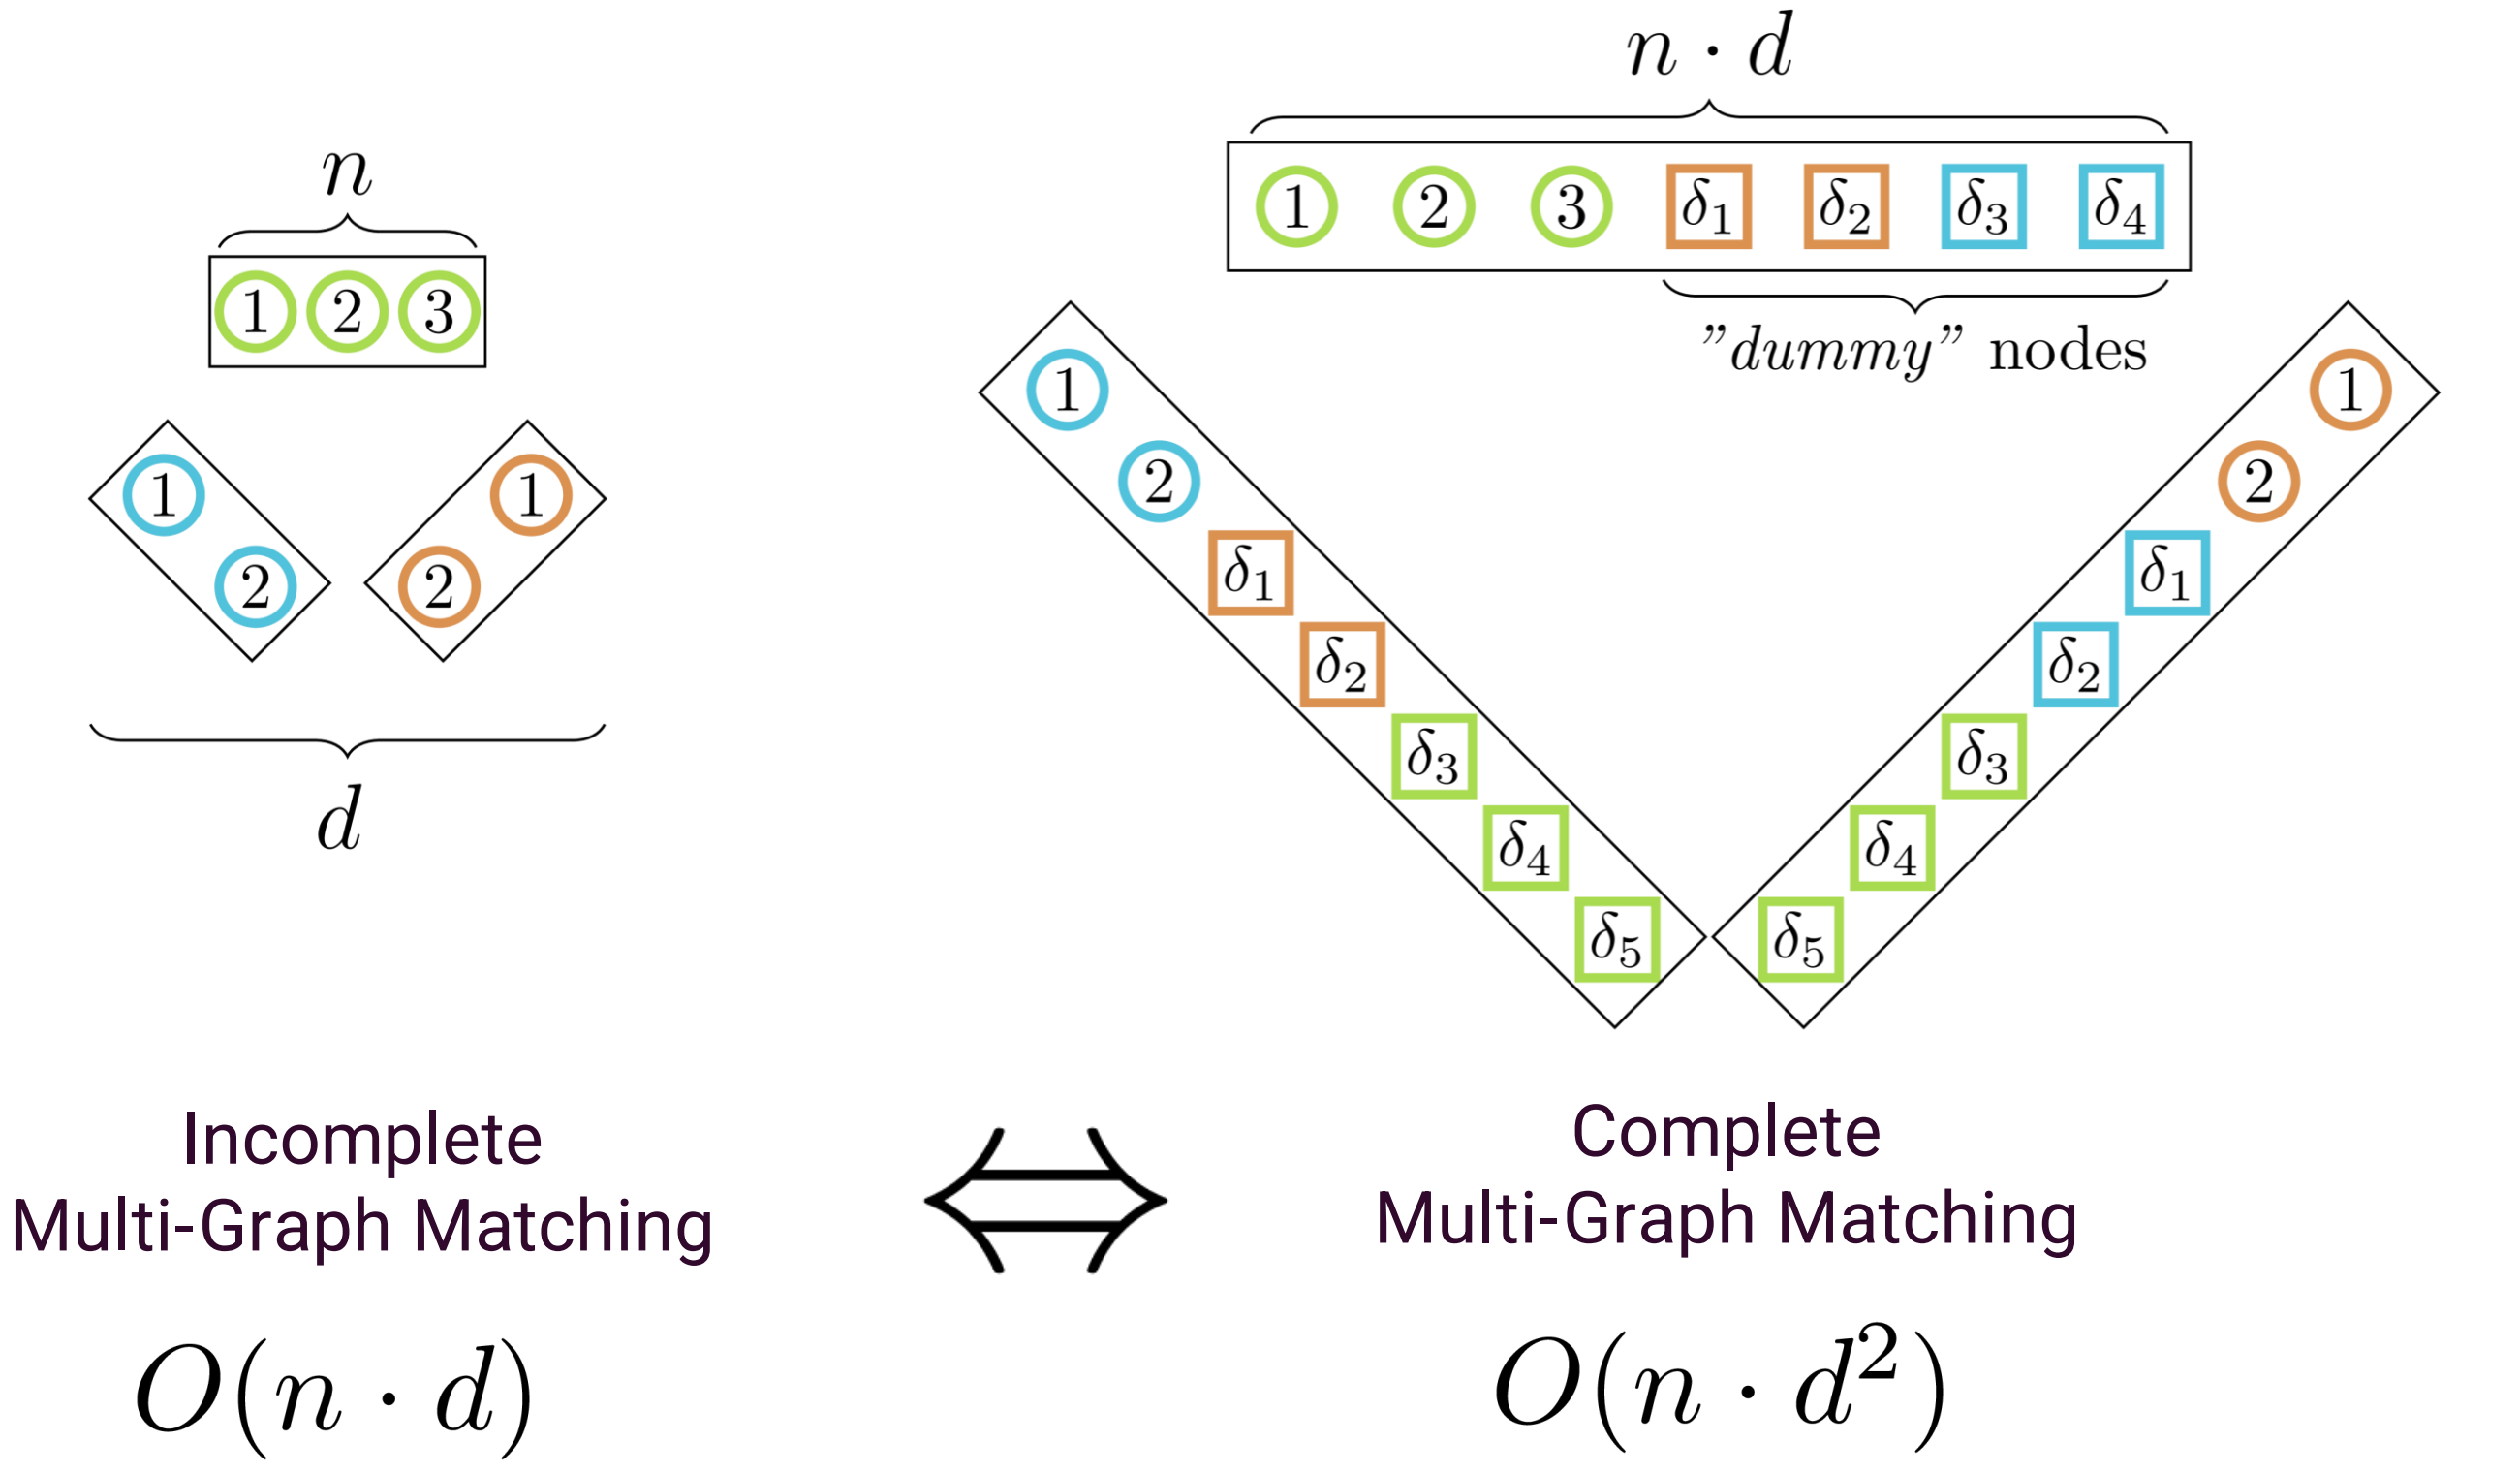

Sparse & incomplete matchings

Incomplete quadratic assignment

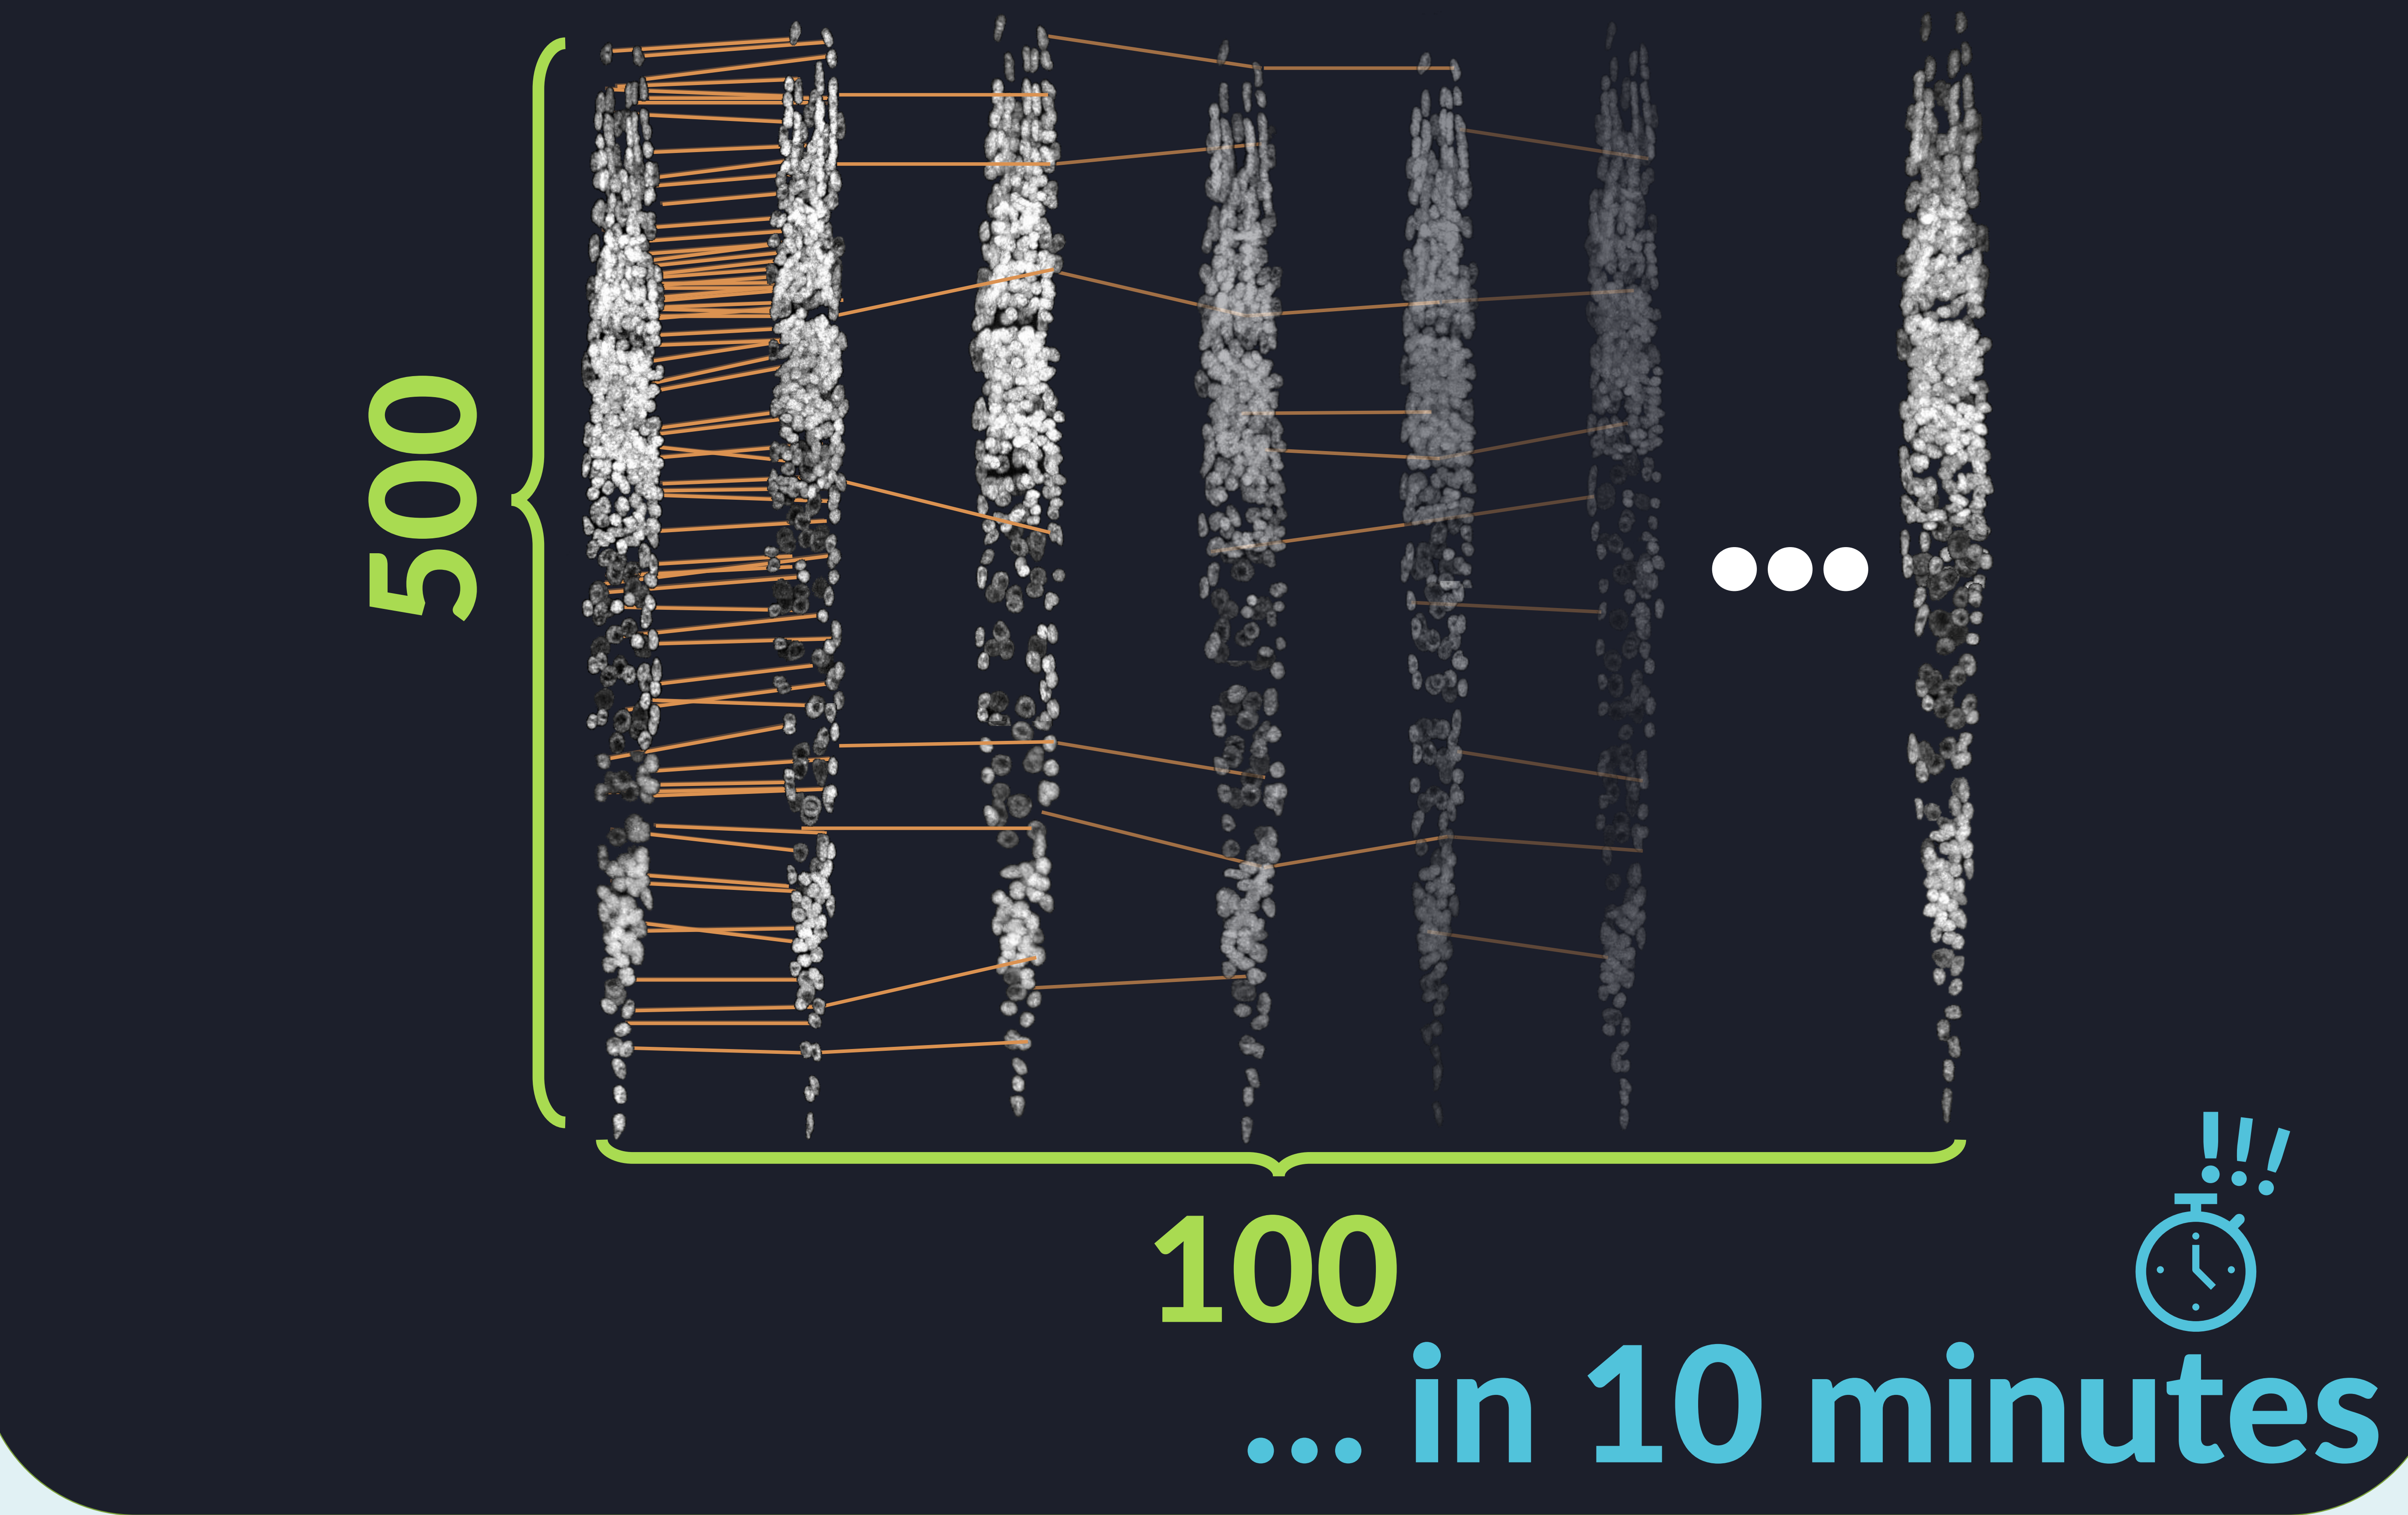

Thm. You can't do better than:

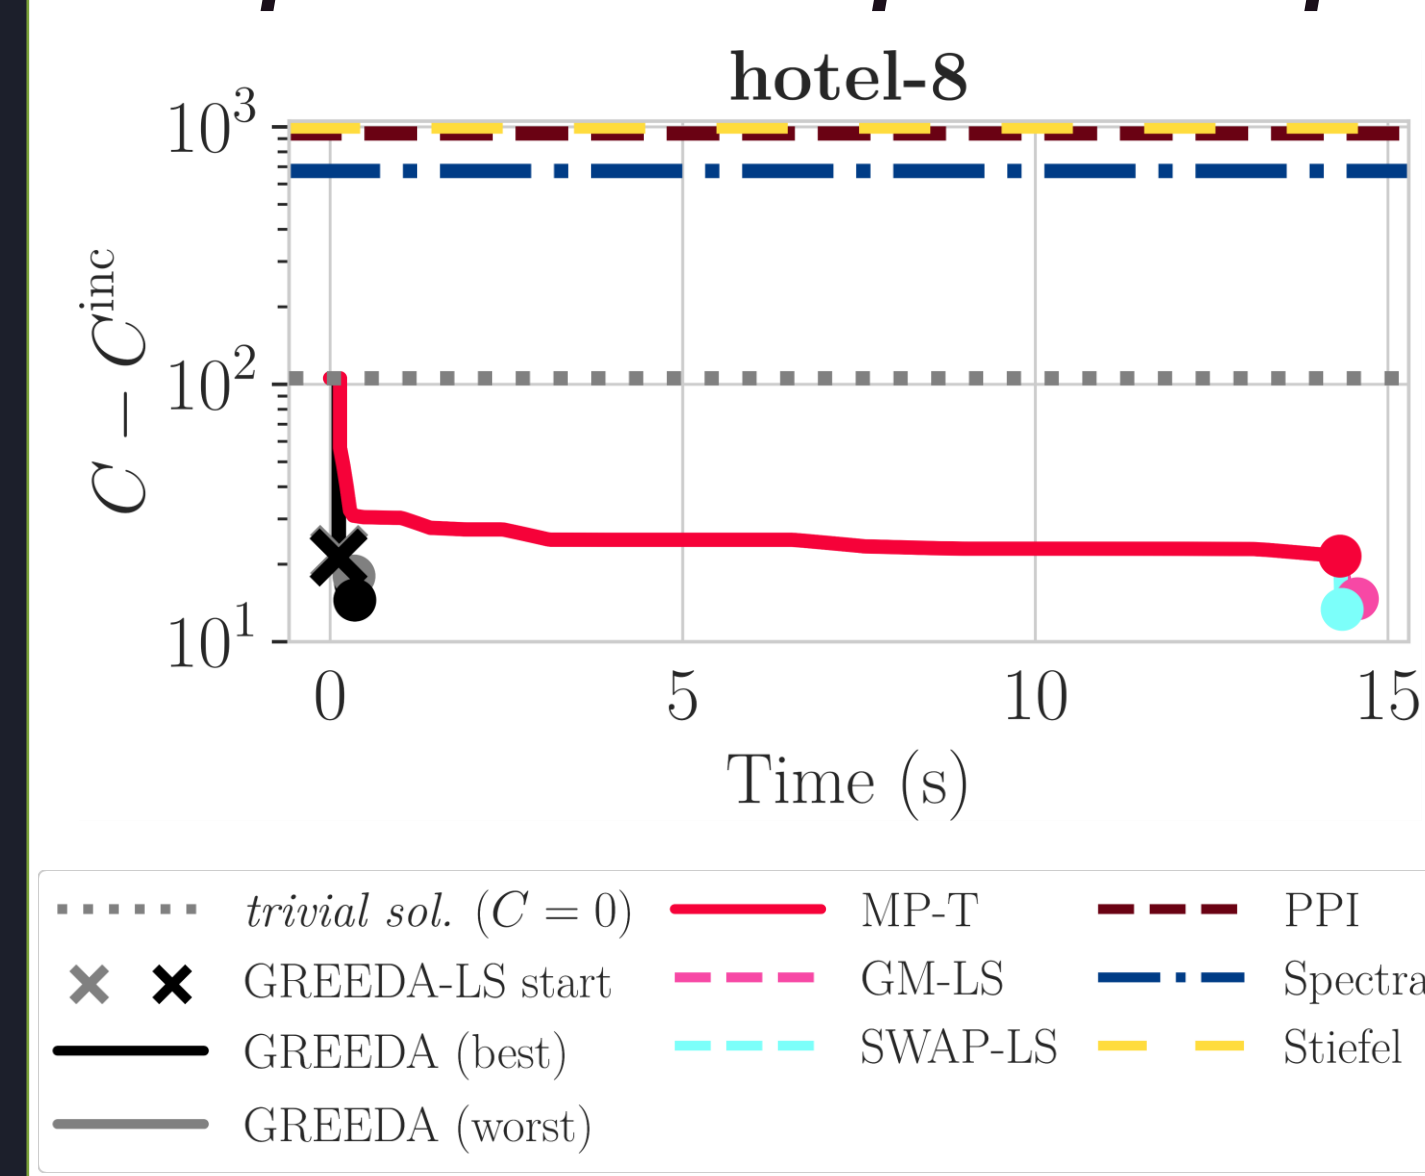

⇒ Solvers must handle incomplete problems directly

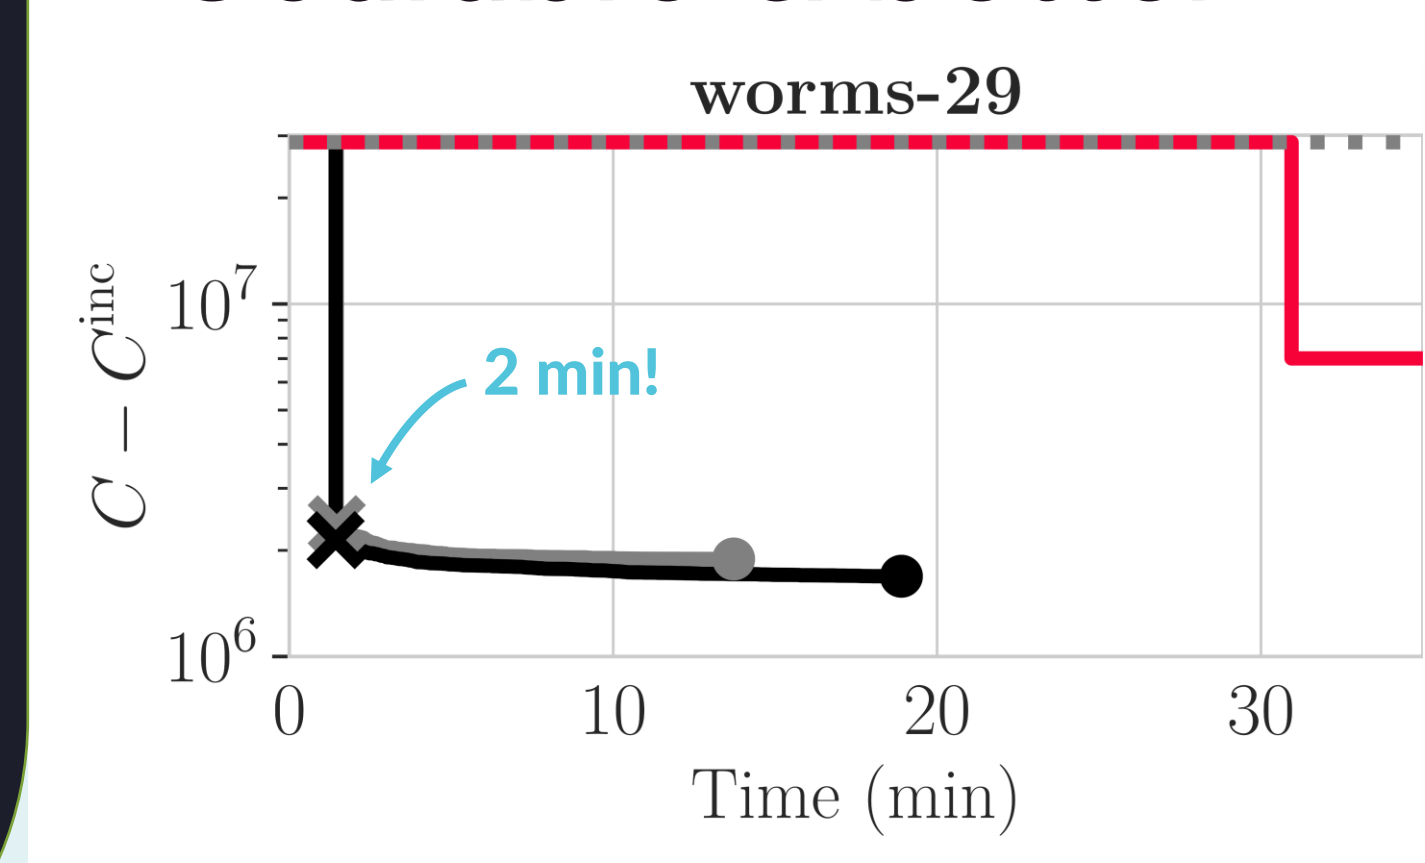

HUGE Cycle-Consistent Multi-Graph Matching

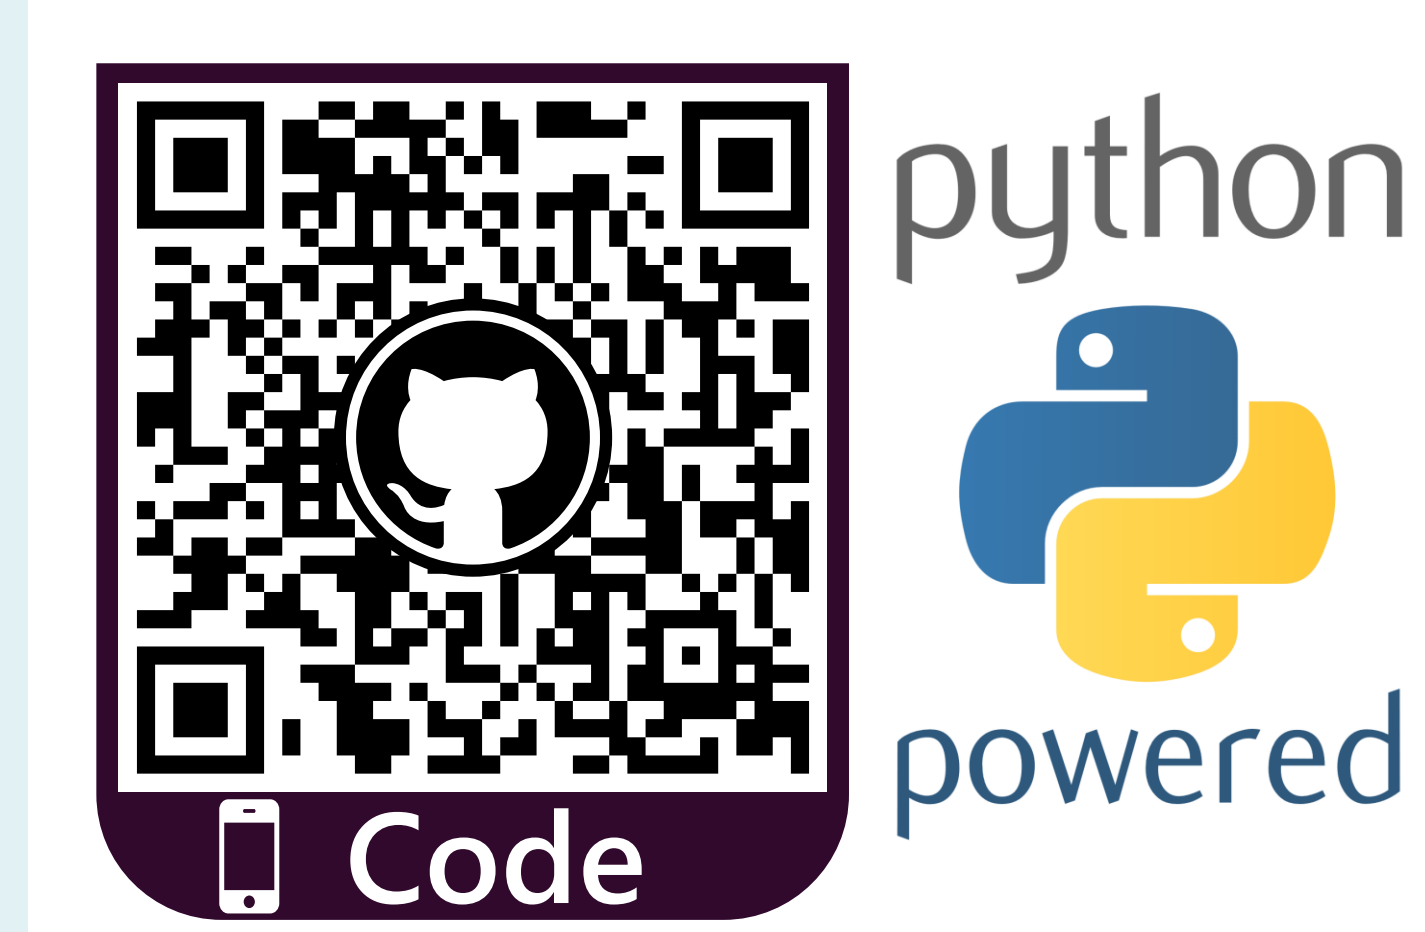

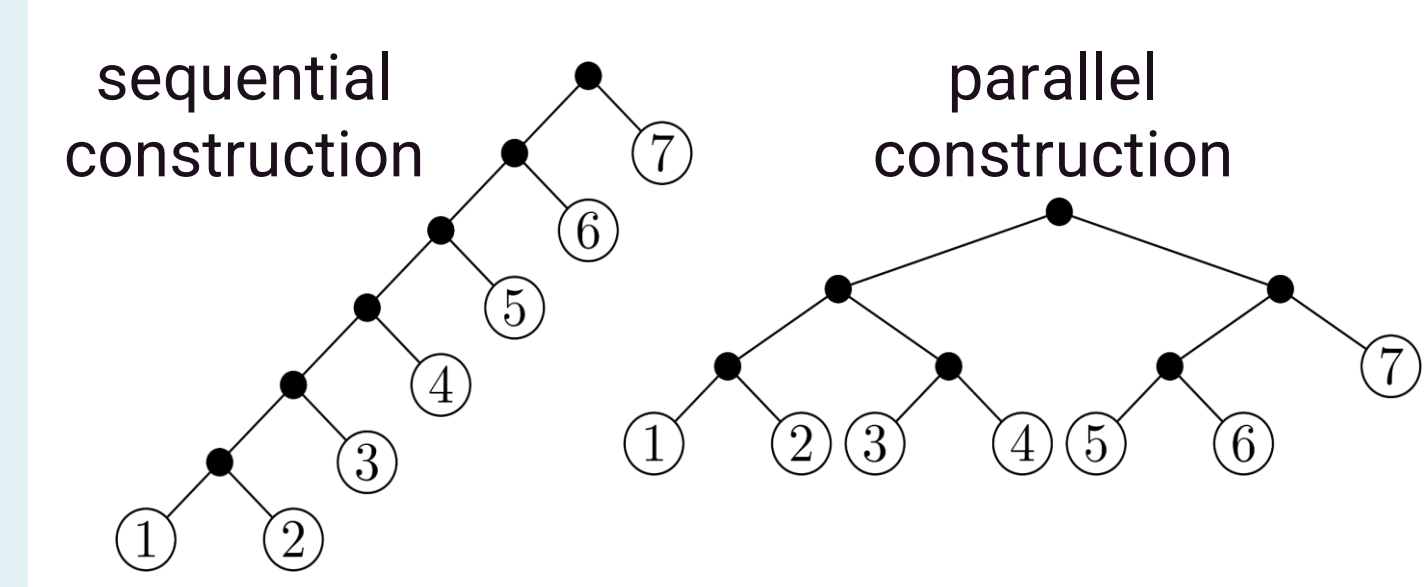

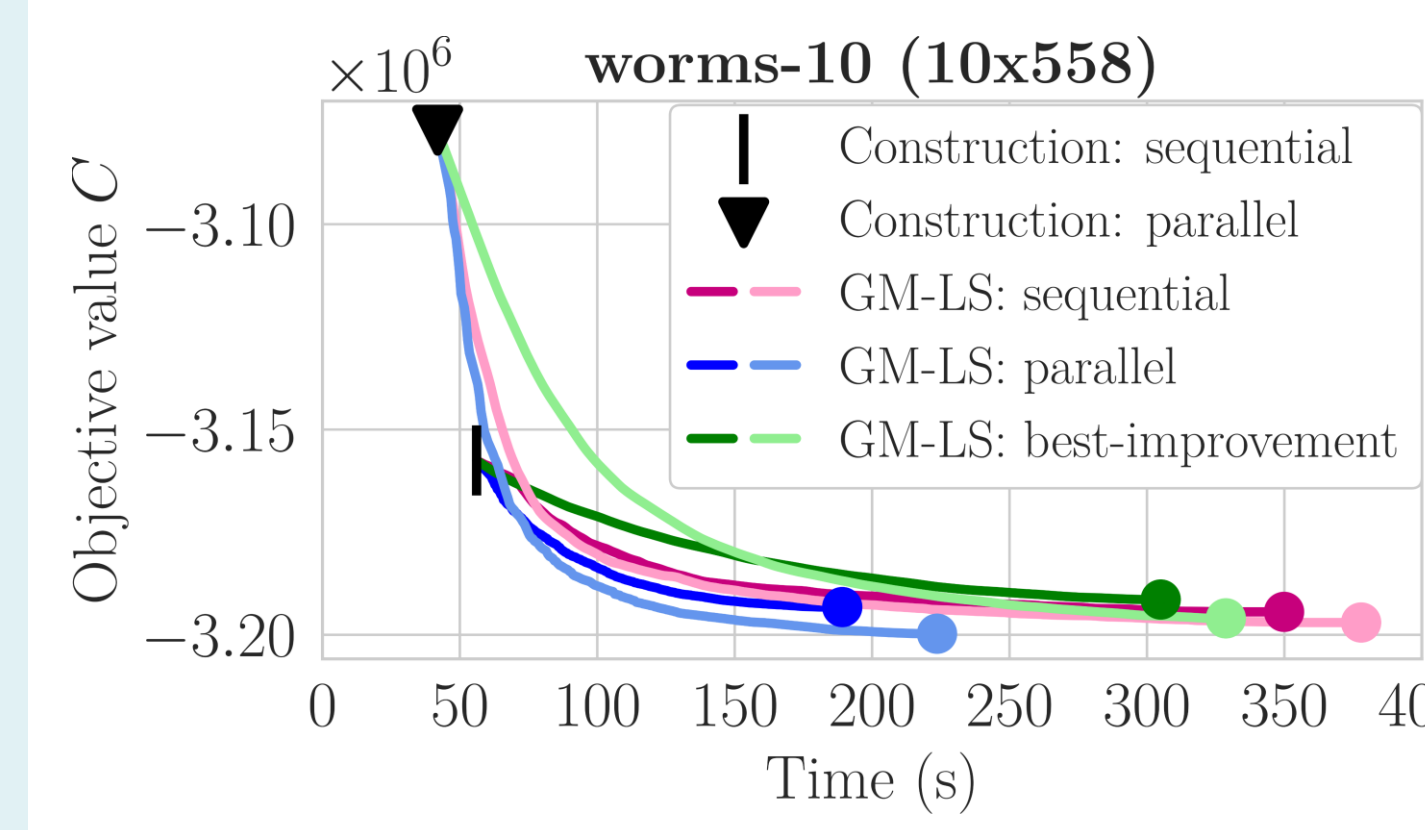

Small problems
Up to 10x speed-up

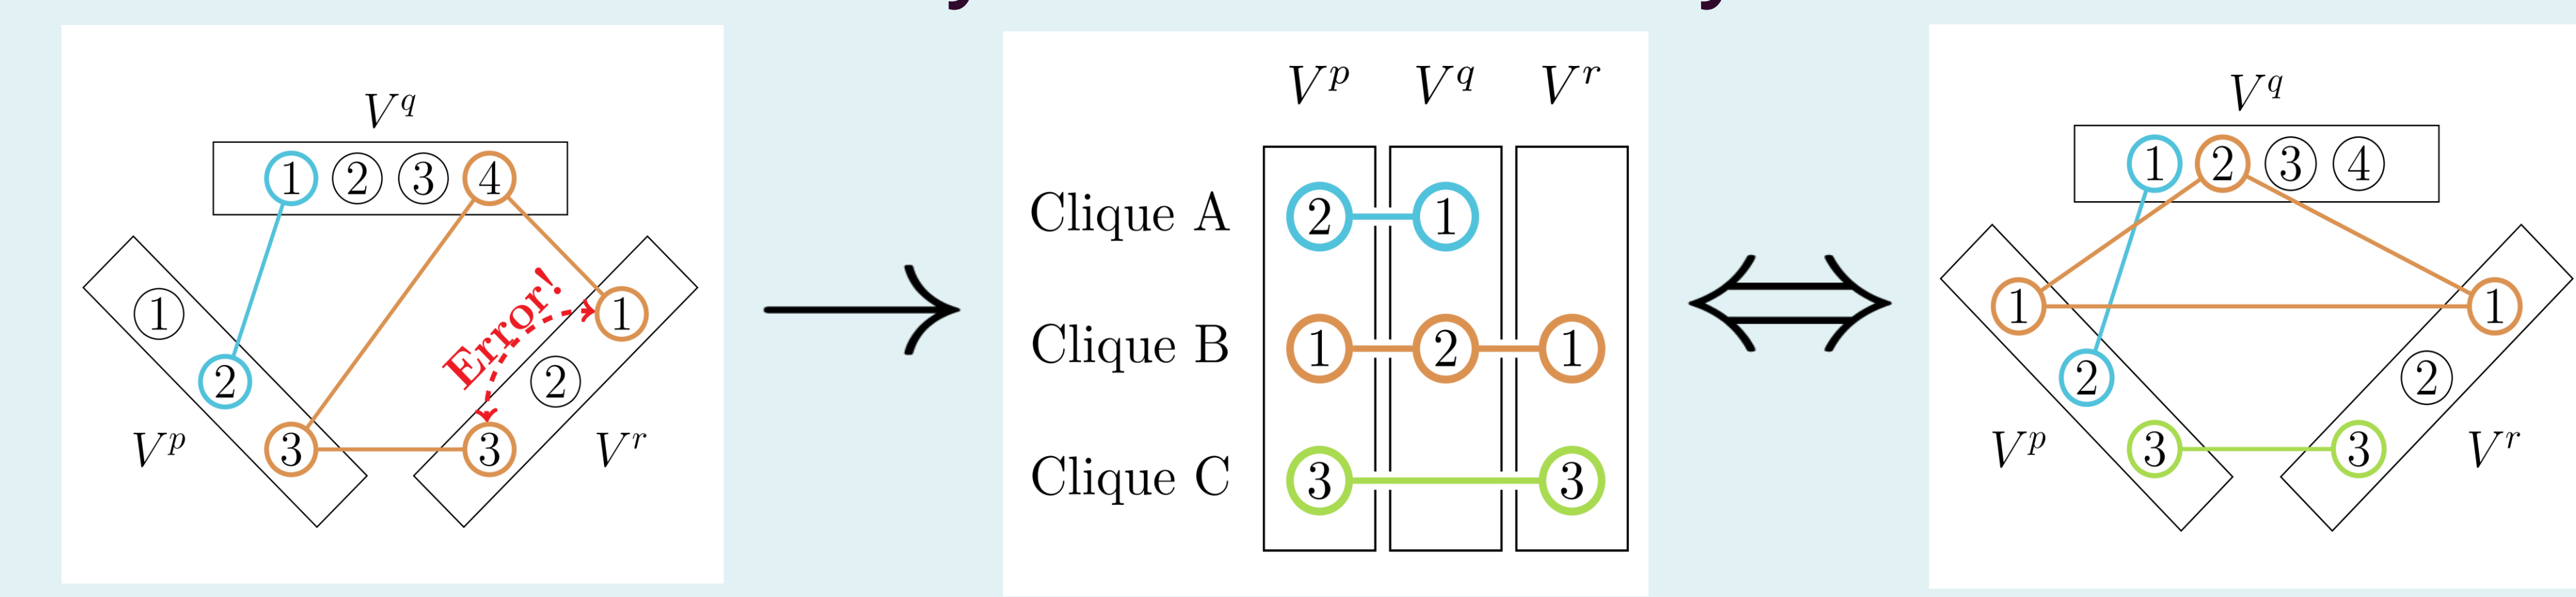

Large Problems
Scalable & better

Parallelizable

Cycle Consistency

Our Algorithm: GREEDA
